■ HTML Overview

`BOLDBLOCK0` stands for `BOLDBLOCK1`. It's the standard markup language for creating web pages.

■ Features

- Defines the structure of web content
- Uses tags like ``CODEBLOCK0CODEBLOCK1``, etc.
- Works with CSS & JavaScript for full web functionality

■ Basic HTML Example

```
My First Web Page Welcome to My Diary This is my personal web-based
diary. Visit my website
```

■ How to Use

1. Save the code above in a `CODEBLOCK0` file.
2. Open it in a web browser.
